HISTORY OF HILLSBORO

Courthouse Remnants

Hillsboro was founded in April, 1877, when two prospectors discovered a series of gold deposits on the east side of the Black Range Mountains along Percha Creek. Dave Stitzel and Daniel Dugan staked out the “Opportunity” and “Ready Pay” mines.

A tent city quickly filled with over 300 miners, store owners, adventuresome women and children. As the area grew more settled, adobe and wooden structures began to replace the tents. By 1880 the town had four saloons, four grocery stores and a post office.

Today, Hillsboro is a well-known community of artists, writers and ranchers. The community hosts the always popular Apple Festival, Christmas in the Foothills, community Christmas party and monthly music events.
